The Quickie XTR “Xtreme Terrain Reflex” is the first monoshock suspension chair on the market. The Quickie XTR features Rock Shox®, a unique suspension system developed exclusively for Quickie. This system offers superior performance with factory-tuned rebound and compression, as well as better side to side stability. With the Quickie XTR the rider is assured a smooth, stable ride over a variety of terrain.

Angle-adjustable folding backrest
Exclusive Rock Shox® suspension
Rigid tubular footrest
Angle-adjustable caster housing
0°, 4° or 8° camber tube options
Adjustable center of gravity
Optional mountain tire package

Mountain Tire Package
The Quickie XTR mountain tire package includes tires designed for a multitude of “xtreme” terrain. Both the heat treated and mountain tires are 24" in height, which make it easy to change wheels without having to re-adjust the chair.

Angle-adjustable Folding Backrest
The back and seat frames are attached together to facilitate seat-to-back angles and to accommodate posturing and positioning devices. The backrest can be folded completely for easy, compact transport.

Rock Shox® Monoshock Suspension
This unique suspension system provides a smoother ride up curbs and on uneven terrain, reducing back pain and fatigue. Rock Shox® has 2.5" rear wheel travel for shock absorption providing the rider with a more controlled and confident ride.
