BREEZY ULTRA 4

The best combination of durability, selection and value.

Breezy® — the tradition of superior clinical benefit integrated with stylish looks continues with the new Breezy Ultra<sup>4</sup> high-strength, lightweight wheelchair. Compare these features and you will find the Breezy Ultra<sup>4</sup> sets a higher standard for performance, versatility, and value.

**Lighter Weight Aluminum Frame** — Every ounce of added weight requires greater energy and strength, not only to propel but also to load in and out of a car. Breezy Ultra<sup>4</sup>, made out of corrosion-resistant aluminum, is one of the lightest wheelchairs in its class.

**Quick-Release Wheels Are Standard** — An added cost on other comparable wheelchairs, all Breezy Ultra<sup>4</sup> users will appreciate the ability to remove the wheels with just the push of a button. This makes transferring into vehicles easy by converting the chair into three smaller, lightweight components.

**Enhanced User Function and Positioning** — The Breezy Ultra<sup>4</sup>'s package of adjustable features and options, plus the ability to accommodate Jay® seating products, allows you to create a custom fit to accommodate a variety of positioning needs. The Breezy Ultra<sup>4</sup> can be set up for foot propulsion, accommodate needs for added lateral stability, provide for planar flexion, and aid in positioning kyphotic postures making it one of the most versatile models available.

Premium Features are Standard on Breezy Ultra<sup>4</sup>

Quick-Release Wheels  
Make loading in/out of vehicles easy.

Angle-Adjustable Front Casters  
Accommodate angled seating surfaces without moving the caster housings out of square.

Adjustable Axle Positions  
Three seat height positions and the ability to add a fixed tilt allow for greater flexibility.

Quick-Adjust Footrests  
Adjust height without tools using spring-loaded detent buttons. Heel loops adjust with Velcro®.

Key Options

Angle-Adjustable Back  
Back adjusts from 6° anterior to 24° posterior in 6° increments for better positioning. Height adjusts to 17", 18" or 19".

Tension Adjustable Back  
Highly adjustable velcro strap system provides customized postural support.

Height-Adjustable Arms  
4" vertical adjustment allows for use of cushions.

Hemi Frame  
Allows for a seat height as low as 13.5".
