

Invacare® Top End® Eliminator™ NRG Racing Wheelchair

Product Description:

The NRG Racer is an elite racing chair, designed specifically for adaptive racing athletes seeking to be at the top of the podium. It features a hybrid design of advanced carbon fiber technology and a custom fit with enhanced aerodynamics, providing a lightweight and stiff frame with a sharp, responsive ride. Top End NRG offers an unsurpassed ride quality- introducing Top End's next generation of adaptive sporting equipment.

About New Smart Forms:

Top End is excited to introduce a new way to order Top End products. Our new Smart Forms provide an easy and electronic way to fill out order forms, save copies, and submit them via e-mail. Please see below for the features and useful information. Please note that because of the many upgrades available on our Invacare® Top End® Eliminator™ NRG, the base price does not include wheels or components. The standard selections are set as the default for your convenience and the overall price will be adjusted accordingly. This will allow you to build your Invacare® Top End® Eliminator™ NRG Racing Chair exactly how you want it!

How to use:

- Use any Adobe Acrobat application to electronically fill out the order form
- Use the default selections to order a product with the most common configuration
- Use the **"Reset"** button located in the forms footer to reset selections to their defaults
- Use the **"Clear All"** button located in the forms footer to clear selections, including defaults. This feature allows for a blank order form to be printed and completed by hand
- Use the **"E-mail to Top End order box"** button located on the last page of the form to e-mail the completed form directly to the topendorders@invacare.com e-mail inbox
- Forms can be completed electronically, printed, and e-mailed or faxed to topendorders@invacare.com or 727-522-1007 if access to Acrobat Reader for Windows is unavailable

(Acrobat Reader for Windows with java-script enabled is required to save and attach to e-mail)

Features:

- Tabulated options for an organized and standardized work-flow
- New more specific option codes which will appear on confirmations to improve customer / manufacturing communication
- Common special requests have been given option codes
- Built in exclusions to help eliminate errors
- Ability to save the form after it is filled out
- Ability to e-mail the form inside Acrobat Reader rather than saving a copy and attaching to an e-mail
- Ability to clear the entire form so it can be printed and completed by hand in the field when a computer is not available
- Ability to reset form to default selections

Invacare® Top End® Eliminator™ NRG Racing Wheelchair

DEFINITIONS:	
Frame/Cage:	Frame is made of carbon fiber and cage is made out of 6061 aluminum. The cage style is a U-cage.
Assembled vs Unassembled:	If TE10046 (Unassembled) is selected the chair will require about 60 minutes of assembly upon delivery (instructions provided). If TE10047 (Assembled) is selected the chair will be fully assembled upon delivery. Shipping rate is \$150 for all shipments in the continental US. Freight quotes for shipments outside the continental US are available upon request.
Bumper Width:	Bumper width is measured from inside to inside.
Camber Angle:	Measured from vertical to the angle of the rear tire on one side. Also stamped on the bushing.
Aero Fixed Steering:	Fixed steering handle is lightweight at just 202 grams (100 grams lighter than the adjustable handle), the design increases aerodynamics and stiffness. Handle is Royal Blue and 9.5" long standard with custom length and additional colors available upon request.
Solid Seat:	The solid seat provides a solid seating surface. Not recommended if customers intend to adjust the seat upholstery. Available in carbon fiber or aluminum.
Upper Frame Width:	Measured directly above the center of the camber tube between the insides of the fenders. The difference is the Upper Frame Width and Lower Frame Width must NOT exceed 3".
Lower Frame Width:	Measured directly above the center of the camber tube between the insides of the fenders. The difference is the Upper Frame Width and Lower Frame Width must NOT exceed 3".
Rear Seat Height:	The rear seat height is measured from the top of the seat rail to the ground at the front of the rear upright.
Overall Length:	Overall length is measured from the outside of the front tire to the outside of the rear tires at the furthest points.
Axle Position:	Axle Position (or Center of Gravity) is measured from the center of the camber tube to the front of the rear upright. The measurement must be taken parallel to the ground.
Knee Height:	Knee Height is measured from the top of the U-cage horizontal cross-member to the ground.
Knee Depth:	Knee Depth is measured from the back of the rear upright to the front of the U-cage cross-member. The measurement must be taken parallel to the ground.
Knee Width:	Knee width is measured between the inside of the U-cage vertical tubing.
Wheel Size:	The Eliminator NRG Racing Wheelchair is only available with 700c rear wheels. Tires must be the same Clincher/Tubular type as wheels selected.
Upgradable Accessories:	All Add-on options and accessories are boxed separately and may require self installation. Additionally, upgrade options and accessories may ship separately.
Click Strap:	Single 8" click strap pad with attaching hardware for installation to fenders. This strap is in addition to the back upholstery.
Seat Cushion:	2 inch cushion consisting of 1 inch hard foam and 1 inch soft foam.

PRODUCT SPECIFICATIONS:	
Carbon Main Frame:	We created our fastest, lightest, and most responsive ride for racers. Increased tensile strength and modulus gives racers a smooth ride and controlled handling.
Super Light Carbon Fork:	200 grams full carbon with a more aerodynamic design- which flows into the headtube creating cleaner lines.
Modular Custom Seat Cage:	This hybrid tailor fit cage, gives the racer the ability to fine tune his or her positioning to put the power to the ground.
Fenders with Side Panels:	Carbon fiber integrated and built to accommodate oversized tires.
Field Tested:	During the 15+ months of field testing by top racers, the NRG won the LA marathon and broke 2 world records.
World Class Manufacturing:	Lab tested at 1 million+ cycles, surpassing all of our previous designs.
Unsurpassed Ride Quality:	From our field testers- Smooth ride, controlled road vibration and amazing power transfer.
Next Generation Compensator:	This new and improved racing compensator has a better turning radius with zero-play confidence.
TT Style Brake:	The multi- position brake lever, with cabling routed externally, can be positioned any where on the steering handle.
Pushrim Size:	Measurement from outside to outside of the metal tubing of the pushrim.
Omit Wheels:	When Omit Wheels is selected, product will not come with wheels, tires, tubes, pushrims or axles.

Warranty Info:

Invacare warrants the frames and forks when purchased new and unused to be free from defects in materials and workmanship for a period of two (2) years from the date of purchase from Invacare or a dealer, with a copy of the seller's invoice required for coverage under this warranty. Invacare warrants the upholstered materials (seat and back) and remaining components of this product when purchased new and unused to be free from defects in materials and workmanship for a period of thirteen (13) months from date of purchase from Invacare or a dealer, with a copy of the seller's invoice required for coverage under this warranty.
