

COMPOSITE FOOTPLATE

STEP UP TO HIGHER PERFORMANCE.

Newton has been making aluminum angle-adjustable footplates for some years. Now we're upping the ante with a composite footplate engineered to be even lighter than our best-selling model.

We added rubber inserts for greater safety and traction and a new look for a refreshed appearance. Newton Composite Footplates. Step up to higher performance componentry.

- Composite material reduces weight.
- Rubber inserts bump up traction and safety.
- High design aesthetics enhance overall appearance.
- Available in Small, Medium or Large.
- 2" of depth adjustability.

The Newton Story

Newton high-performance wheelchair components are born from our impatience with the status quo. Every Newton component represents a total rethink of what's possible. High-end performance and design. Innovative technology and materials. And head-turning aesthetics. A single glance tells you it's a Newton component. A single test drive confirms it. Upgrade your ride. Get Newton.
