Cruiser Classic Features

HCPCS:E1236

 30° Fixed Tilt Promotes upper body positioning for individuals with limited upper body strength or trunk stability

- 85° 95° Seat-to-Back Angle Adjustment Enhanced positioning for individuals with limited ability to bend at the waist
- Self Tensioning Seating Surface Frame is uniquely designed to open wider with the weight of the occupant - this action keeps the fabric taut, and provides a flat/stable seating surface for optimal positioning
- In-Depth Positioning Options Provide optimal positioning for increased therapeutic benefits - all day seating

- Cruiser EI Size 10 The perfect Early Intervention (EI) wheelchair designed to address the positioning needs of children under 50 lbs. (suggested age range from 6 months to 4 years)
- · Lightweight & Compact Folding For easy storage and transport - fold and go!
- Custom Modifications Achieve exact fit for any size or shape
- Growth Capabilities Multiple frame adjustments extend the life of the chair for a growing child
- Crash Tested Transit Models Adhere to national safety standards, and provide safe transport in bus or van

compact folded CRUISER
