Phytoplex™

Clinical skin care. Nurturing botanicals.

Cleanse. Moisturize. Protect. Treat.

Medline Remedy® with PhytoPlex™ is an outcomes-driven, gently formulated collection from the skin care experts at Medline.

Designed for the most sensitive of skins, it boasts a rich, creamy texture as well as subtle refinements to the botanic ingredients. The

innovative PhytoPlex blend of soy, blue-green algae, green tea and clove remains the plant-based cornerstone of every product in the line.

Medline Remedy nourishes the skin with our proprietary blends of nutrients and antioxidants. Phytoplex products are largely plant-based. You can be confident they're made without aloe, parabens, sulfates or phthalates.

Gentle cleansers, soothing moisturizers, proven protectants and targeted treatments can be mixed and matched to address your precise skin care needs and regimens.

Consult your Medline representative for samples, advice and for details of the many clinical studies supporting the efficacy and safety of the Medline Remedy skin care line.

Phytoplex helps nourish, moisturize, and soothe skin.
