## Patriotic Electric Lifts

WheelChair Carrier takes pride in introducing our new line of patriotic electric lifts designed to salute all those who have served our country, fought to endure our freedom, and those who would like to show their support for America. May God Bless America!

US208P has a pocket for Mid- Drive Mobility devices to rest in for secure travels.

All of our electric lifts include our new **Switch Box** which allows operation of the lift while resting in your mobility device.

Platforms are now E-Coated *and* Powder Coated for long lasting durability!

Our patriotic electric carrier comes in both *power chair* and *scooter* platforms. Loading and unloading is a breeze from either side of the platform. Our electric carriers are fully powered. Just press the button and the lift does all the work! Our new **switch box** allows you to operate the lift while still sitting comfortably in your mobility device. Also includes 2 retractable ratchets for securing the chair and one wire harness. Additional ratchets (sold separately) for power chairs are suggested. Class 2 or Class 3 adapters available. Swing Away option for easy rear access is also available for any electric lift.
