

Elevate Upright Walker

HCPCS:

The Drive Elevate Upright Walker brings users increased balance and stability while promoting better posture and providing a more natural line of sight than traditional mobility aids. Height-adjustable upholstered forearm pads keep arms supported and level for comfortable use, while large, ten-inch wheels make it perfect for indoor and outdoor use. With a one-handed, side-to-side fold, the Elevate Upright Walker is the stand-up mobility aid that's easy to take on the go.

- Padded armrests and upright handle adjust to user height preferences
- Durable and comfortable padded seat
- Simple one-handed, side-to-side folding
- Includes removable zipper storage bag with strap
- Dual front fork for optimal stability and maneuverability
- Loop lock brakes for added safety and control
- Adjustable length dual handbrake system
- Large 10 multi-terrain front wheels for indoor and outdoor use
- Height adjustable backrest
